

The image is a vertical composition. The upper two-thirds show a clear night sky with the Milky Way galaxy stretching from the top left towards the center. The stars are numerous and vary in brightness and color, with some appearing blue. The lower third of the image shows a landscape at sunset or sunrise. The sky is a warm, golden-orange color. In the foreground, there are silhouettes of various trees, including a large, flat-topped tree on the right and several palm trees. The ground is dark and appears to be a field or forest floor.
